

2 - Corrigés implémentations fonctions de test

```
function testEqual(expected, result) {
    console.log(expected === result);
}

function testGreater(expected, result) {
    testEqual(true, expected > result);
}

function testLower(expected, result) {
    testEqual(true, expected < result);
}

function testGreaterOrEqual(expected, result) {
    testEqual(true, expected >= result);
}

function testLowerOrEqual(expected, result) {
    testEqual(true, expected <= result);
}

testGreater(3, 2);
testLower(2, 3);
testGreaterOrEqual(3, 3);
testGreaterOrEqual(3, 2);
testLowerOrEqual(2, 3);
testLowerOrEqual(4, 4);

function testInclude(needle, haystack) {
    testEqual(true, haystack.includes(needle));
}

function testStarts(needle, haystack) {
    testEqual(true, haystack.startsWith(needle));
}

function testEnds(needle, haystack) {
    testEqual(true, haystack.endsWith(needle));
}

testInclude("wor", "Hello world");
testStarts("Hello", "Hello world");
testEnds("world", "Hello world");
```
